Agency response

Due to the major state highways that run through our jurisdiction (state routes 115 and 180), there is an abundance of commuter traffic traveling through our city. The following are the demographics of black residents in bordering municipalities: Bel-Ridge: 80%, Pagedale: 92%, Berkeley: 77%, Normandy: 61%.

Agency response

The city population has been adjusted from 2,477 to 5,166 in 2002. We have a men's correctional center located within our city limits (NECC) and a women's correctional center located within 15 miles on Highway 54. The police department observes much traffic coming and going from these facilities by workers, sales representatives, construction crews, doctors, dentists, attorneys, family members and other visitors. The city has two major fuel centers located on U.S. Highway 61 (Phillips 66 and Shell) and four other convenience stores on Business Highway 61 for those traveling along U.S. Highway 21 and Highway 54. Located within the city limits is a 64-room Super 8 Motel which can house up to approximately 200 persons, also located on U.S. Highway 61. Located within the city limits is the original homestead of Champ Clark, a historical attraction for many people. We have seen an increase in residential and commercial construction, thus resulting in more vehicular traffic.

Agency response

Camden County is a tourist area, with a large influx of persons during the summer months. Of the total traffic stops, 53.68% were of non-residents. There are several large resorts and several businesses in the area that employ unskilled labor from labor management companies. Numerous residents of adjoining counties also commute to this county for employment and recreation.
Of the eight searches of black motorists, two were duplicates (entered twice).
Of the nine searches of Hispanic motorists, one was a duplicate (entered twice).
Of the 2,681 traffic stops of whites, 53% were not residents of this county.
Of the 46 traffic stops of blacks, 69.5% were not residents of this county.
Of the 36 traffic stops of Hispanics, 58.33 were not residents of this county.
Of the one traffic stop of an American Indian/Alaskan Indian, 100% were not residents of this county.
Of the six traffic stops of Asians, 66.66% were not residents of this county.

Agency response

The following are conditions that may impact our minority contacts:
Chesterfield Mall – A major shopping mall located on 86 acres in the center of Chesterfield has four major department stores and 140 smaller stores comprising 1.5 million square feet of shopping area.
Spirit of St. Louis Airport – The largest reliever airport in the state, is also the second busiest in the state, and is within the Chesterfield city limits.
13 miles of Interstate 64/U.S. Highway 40 runs through the city, virtually splitting the city in to a north and south area.

Agency response

The village of Claycomo is surrounded by Kansas City on three sides. In addition, two interstate highways, I-35 and I-435, run through the village. The village of Claycomo is home to the Ford-Claycomo assembly plant, which employs over 6,000 workers, in addition to vendors and outside contractors who travel through the village on a daily basis. The Claycomo Police Department has created a “traffic office” position, which was developed to improve highway safety for the citizens of Claycomo and those who visit or are employed in the village. The creation of this position has lead to an increase in the amount of traffic stops performed by the Claycomo Police Department. However, this enforcement has reduced traffic accidents and personal injuries/fatalities.

Agency response

The city of Clayton is the county seat for St. Louis County. It contains the courts, government offices, juvenile detention center and the St. Louis County Justice Center, which houses over 1,200 inmates. In addition, Clayton is the home of several major corporations and contains over 6.5 million square feet of office space and one million square feet of retail. It is estimated that over 80,000 people visit Clayton on a daily basis to work, shop, or do business. Most of those visiting Clayton reside in the St. Louis Metropolitan area. Additionally, a number of major thoroughfares run through Clayton carrying commuters from various parts of the county requiring a significant amount of traffic enforcement: I-170, Forest Park Parkway, Hanley Road, Clayton Road, Brentwood Boulevard and Forsyth Boulevard. Therefore, it is felt that for the purposes of this study, the racial makeup of the population should be in direct proportion to that of the St. Louis Metropolitan area. This is supported by the fact that only 6% of the vehicles stopped during 2002 were actually residents of Clayton.

RACIAL PROFILING DATA/2002

Agency: Cleveland Police Dept.

Population: 444
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	248	244		4

Agency response

The city of Clinton is located on the main route between the Kansas City Metropolitan area and the city of Springfield. As a consequence, a large number of non-Clinton residents pass through the city of Clinton. In fact, 49% of all traffic stops made by the Clinton Police Department involve non-resident drivers. In addition, 36% of all traffic stops made by the Clinton Police Department take place on state highways. Given the large number of non-resident drivers stopped on state highways for traffic violations, any comparisons utilizing the population of the city of Clinton are inherently flawed.

Agency response

The city of Creve Coeur is a “crossroads” in the St. Louis Metropolitan area, having five major roadways (interstate and state designated highways) passing through or immediately adjacent to the city. Creve Coeur is home to numerous employees and businesses, as well as one of the largest medical services communities in the region. Drivers of all races regularly visit and/or work in Creve Coeur, resulting in a greater representation of minorities than reflected by the city’s population and ultimately a higher disparity index. Creve Coeur is ranked in the top 20 communities in Missouri regarding traffic collisions, not to mention the city is currently involved in a work-zone project along two major roadways. To that end, the Creve Coeur Police Department executes an aggressive traffic safety program. The Creve Coeur Police Department strives to be professional in all public contacts.

Agency response

The city of Festus has a large interstate highway (I-55) that runs down the middle of the city. This interstate brings several thousand people from outside the area to our city. Our city also has several large retail establishments that people from all over come to patronize. There are several restaurants, gas stations and hotels near our interstate exits that have the ability to cater to a large driving population.

Agency response

The present method used to determine profiling is not truly reflective, because it is based solely on the population of the jurisdiction served and does not take into consideration the major highways and arterial roads, as well as large shopping districts and the number of individuals employed within the jurisdiction. Furthermore, until the mentioned factors are taken into account, any inferences to racial profiling cannot and should not be concluded. This department does not and will not tolerate any enforcement based solely on race or gender.

Agency response

The city of Gladstone has three state highways and one interstate highway that run through the area. In addition there is a major home improvement center located in the southwest corner of the city. This is a center that draws retail business from throughout the area including residents from the state of Kansas. This center also is located in close proximity to three of the four highways that run through Gladstone. It should also be noted that the city of Gladstone is entirely landlocked by Kansas City, Missouri with major thoroughfares that allow travel by Kansas City residents. A review of the data submitted shows that 21% of the blacks and 15% of the Native Americans that my officers came into contact with occurred during stops on the highways that run through our city. In addition, when looking at the resident status of the drivers stopped 15% of the black drivers, 30% of the Hispanic drivers, and 21% of the Native American drivers were Gladstone residents. This would indicate that the majority of the drivers in each instance lived somewhere other than Gladstone. If this information was being utilized in the calculation of the disparity index, which measures against the community's population figures, then the disparity index should drop proportionately.

Agency response

Glendale is a bedroom community in St. Louis County. Although we have a small minority population, we share borders with the cities of Kirkwood, Rock Hill and Webster Groves, who have a more diverse population. Missouri State Route 100 is a highly traveled east/west thoroughfare, which is our northern boundary. Berry Road and Lockwood Boulevard are major streets that convey traffic to Interstate 44, which is just south of our city limits. There are four major shopping centers within a short driving distance. (Average daily traffic counts as of October 2000: State Route 100 - 29,046; Berry Road - 9,590; Lockwood Boulevard - 11,490; Sappington Road - 7,000)

Agency response

The information contained within this report indicates that the “disparity index” for stopping blacks in Grain Valley is 7.92, which indicates over representation. It should be noted that of the 1,454 stops made by Grain Valley Police for the year 2002, there were only 47 blacks stopped. However, because of the number of blacks stopped and the small local population of blacks in Grain Valley (0.41%), the "disparity index" calculation results in an over-inflated number. Additionally, I-70 runs through the community with east and west bound exit ramps into Grain Valley where large numbers of motorists stop because of the three service stations/truck stops that are located adjacent to the interstate. Also Grain Valley is located within the metroplex of Kansas City that has a relatively large black population. In conclusion, I don't believe from the "disparity index" one can conclude Grain Valley Police are targeting blacks as indicated by the raw numbers versus the index figures.

Agency response

Harrisonville is located approximately 30 miles south of Kansas City on U.S. Hwy. 71. This highway and several state highways are used daily by commuters driving to and from their places of employment in the Kansas City Metropolitan area. There thoroughfares are also used by countless numbers of families traveling back and forth to the lakes and vacation spots around the state.

Agency response

The city of Hazelwood has three major highways within our jurisdiction: I-270 which travels through the city; I-70, which culminates in the city at I-270; and Highway 370. In addition, the city also has three major north/south arterial roadways through our city, which are Lindbergh Blvd. (US 67), Hanley Road and Howdershell Road. The average daily traffic flow on these six roadways is approximately 300,000 vehicles daily. The city of Hazelwood is home to over 850 businesses, including the Ford Motor Company Assembly Plant, Boeing Corporation, Malinkrodt Inc., General Motors Parts Plant, United States Postal Service Bulk Mail Facility, IBM, etc. These businesses employ thousands of individuals from across the metropolitan area, including the state of Illinois and the surrounding Missouri counties of St. Charles, Jefferson, Franklin, etc. who travel the streets of the city of Hazelwood to and from their places of employment.

Agency response

When the total minority population of the county is less than 1%, a single traffic stop creates a statistical aberration in the disparity index. This is evident in the distortion reflected for Hickory County caused by one traffic stop of one black motorist for the entire year of 2002.

Agency response

The Higginsville Police Department patrols a 7-mile section of Missouri Highway 13 which intersects with I-70. Many vehicle stops do not involve the local population. Numerous orchards are located to the north of Higginsville. Seasonal workers live in the area but are not counted in the census population totals.

Agency response

U.S. Highway 54, connecting I-70 and Jefferson City, runs through the middle of the city. In most stops the officer does not know the apparent race of the driver until after the stop is conducted. The city of Holts Summit has two activity rental facilities available. The facilities are rented by large groups of blacks and Hispanics on a regular basis, significantly increasing the percentage of those races in our local population.

Agency response

The Independence Police Department, an internationally accredited law enforcement agency, by policy and practice, does not tolerate any form of bias-based profiling. The racial makeup of our motoring public does not reflect the racial makeup of our population due to our close proximity to KCMO and other neighboring cities with significant minority populations. Other factors include major east/west highways entering the city, including I-70, KCMO public schools in Independence, major retail shopping and entertainment destinations, and a lack of IA complaints from motorists citing racial profiling as the basis for being stopped.

RACIAL PROFILING DATA/2002

Agency: Iron County Sheriff's Dept.

Population: 8,391
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	184	180	3	1			
Searches	27	26	1	0			
Arrests	29	27	1	1			
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	96.63	1.19	0.52			
Disparity index	N/A	1.01	1.37	1.04			
Search rate	14.67	14.44	33.33	0.00			
Contraband hit rate	25.93	23.08	100.00	#Error			
Arrest rate	15.76	15.00	33.33	100.00			

Notes: Population figures are from the 2000 Census for persons16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Agency response

The report prepared by the Attorney General's Office may provide an incomplete picture of traffic stop activities by the Joplin Police Department and other Missouri law enforcement agencies, by comparing individual agency traffic stop data against local jurisdiction demographics collected in the 2000 census. For those agencies whose officers are likely to encounter a high proportion of non-residents traveling through their jurisdiction, demographics of the driving population could be significantly different from the demographics of the agency's resident population. A 1999 study for the city of Joplin indicated that 28% of the vehicles entering Joplin each day are registered outside the city of Joplin. The presence of large employment, retail, commercial and medical sites within Joplin results in a daily service population in excess of 225,000, five times greater than the resident population. Until valid data on the demographics of "the population of minority groups residing or traveling within the jurisdiction" is generated, comparisons of traffic stop data to local resident population demographics could easily lead to erroneous conclusions about law enforcement activities.

Contraband hit rate	13.37	14.19	13.04	14.19	3.33	20.00	4.00
Arrest rate	5.99	3.11	11.04	6.87	1.97	11.36	4.04

Notes: Population figures are from the 2000 Census for persons16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Agency response

While the data contained in this report represents the overall number of stops, searches and arrests collected by the Kansas City Missouri Police Department, the disparity indexes have not fluctuated significantly since the data collection began in 2000. However, these number should still be interpreted cautiously. Specifically, relying on the census population for ages 16 and over as a benchmark does not provide a realistic picture of the driving population in Kansas City, Missouri at any given time. There are several major thoroughfares that run through the city, including I-29, I-35 and I-70 that contain a large percentage of drivers not reflected in the static census population used for comparison purposes. Additionally, Kansas City is contained within a metropolitan population of approximately 1.5 million, which adds to the commuter population on the major thoroughfares. The report also indicates that a disproportionate number of persons searched were black (64%) as compared to white (28%). One reason for this difference can be seen in an examination of searches incident to arrest. 68% of searches of black persons were conducted incident to arrest. Further, 57% of the searches incident to arrests were based on outstanding warrants. It should also be noted that KCPD views traffic stop data collection as one of many tools to address the issue of racial profiling. Other tools in use by the department include training, community programs and policies.

Agency response

Lafayette County has a major interstate highway that traverses the county from west to east. The majority of our traffic stops and arrests occur during the evening and night shift. Most of our stops and arrests are of persons that are not residents of our county, using the interstate highway or other state highways located within our county.

RACIAL PROFILING DATA/2002

Agency: LaGrange Police Dept.

Population: 781
age 16 and over

Agency response

This disparity represents blind enforcement. Officers rarely know the ethnicity of the violator while conducting enforcement activities, especially after dark.

Agency response

Interstate 70 borders Lake St. Louis on the north and U.S. Highway 40/61 passes through the city near our southern boundary. 47.8% of the traffic stops initiated with black drivers occurred on the interstate and 21.4% occurred on the U.S. highway. Most of the traffic stops involving black drivers (69.2%) were conducted on these major highways, not on city streets. It is reasonable, therefore, to consider the statewide population for minorities when evaluating the disparity index for our venue. When this criterion for comparison is used, the disparity index for blacks drops from 5.76 to 1.01. Similarly, 61.8% of traffic stops involving Hispanic drivers were conducted on these highways as were 36.4% of the stops involving American Indian drivers and 73% of stops with Asian drivers. 56.1% of stops conducted with white drivers occurred on one occurred on one or the other of these major highways.

Note: Several years ago our agency formed a dedicated traffic unit in response to concern over the number of fatal accidents that had occurred on the two major highways crossing our municipality. The goal of this unit is to increase enforcement of traffic laws, reduce hazardous moving violations in those areas and to save lives. The program has been very successful, resulting in hundreds of alcohol-impaired drivers being removed from the roads and lowering the number of fatal accidents reported the year before the program was initiated to zero deaths in 2002.
