Arrest rate	3.13	0.00	4.13	0.00	0.00	0.00	0.00

**Notes:** Population figures are from the 2010 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

**Disparity index** = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

**Search rate** = (searches / stops) X 100.

**Contraband hit rate** = (searches with contraband found / total searches) X 100.

**Arrest rate** = (arrests / stops) X 100.

#Error indicates zero denominator.

The City of Blue Springs is located in the Kansas City Metropolitan area along Interstate 70 and US 40 Highways. This route is heavily traveled between Kansas City and St. Louis, as well as out-of-state travel. Within the city and in close proximity to the Interstate 70 corridor are many restaurants and retail business, including a large shopping complex at Interstate 70 and Adams Dairy Parkway. In addition, the Blue Springs School District attracts a large number of students and visitors who are not residents of the City, affecting the daily population substantially. The City of Blue Springs has made a strong commitment to protect citizens, both residents and non-residents, from racial or bias based profiling. In addition to the mandatory annual Racial Profiling training required by the State of Missouri, the members of Blue Springs Police Department, both sworn and civilian, have been given additional POST certified training through two separate courses. One, "cultural Diversity Competency and Racial Profiling for Peace Officers," is taught by Dr. Emmanuel Ngomsi of All World Languages and Cultures, Inc., and the other by Sean McCarthy, Continuing Education Coordinator for the St. Louis Police Department, which is titled "Cultural Diversity/Bias Free Policing."

**Agency response**

The City of Bridgeton is located near Lambert Airport and consists of a small residential population. There are three major interstate highways; namely, 70, 270 and 370 that run through the City. Also, US highway 67 (Lindbergh), St. Charles Rock Road and Natural Bridge Road are major thoroughfares which also run through the City of Bridgeton. There is a large transient population and work force with many hotels and large industrial employers with in Bridgeton's boundaries.

**Agency response**

The City of Clayton is the seat of government for St. Louis County and, as such, contains the courts and jail, the juvenile detention facility, and other government offices, which are utilized by all residents of St. Louis County on a daily basis. Additionally, Clayton is home to a number of major corporations and contains over 6.5 million square feet of office space and over one million square feet of retail space. Estimates vary, but it is believed a minimum of 50,000 people visit Clayton each day to work, shop, frequent restaurants, or otherwise do business. Most of those coming into the City are residents of the greater Metropolitan St. Louis area and beyond. We have a number of major arterial roadways and two highways which carry commuters from various parts of St. Louis County, all of which require a significant amount of traffic enforcement. Therefore, for the purposes of this study, we believe the racial makeup of the population should be in direct proportion to that of the Metropolitan Area, or at least in line with that of St. Louis County, rather than simply that resident population of the City of Clayton. If the racial composition of St. Louis County were used as the benchmark, the disparity index would be lower than it is reported in our statistics.

**Agency response**

The City of Clinton is located on the main route between the Kansas City metropolitan area and the City of Springfield. As a consequence, a large number of non-Clinton residents pass through the City of Clinton. Approximately 35% of all traffic stops made by the Clinton Police Department in 2013 took place on state highways. Given the number of non-resident drivers stopped on state highways for traffic violations, any comparisons utilizing the population of the City of Clinton are inherently flawed.

**Agency response**

The City of Florissant offers several amenities to the citizens of Florissant, which has a population of 52,145 according to the United States Census Bureau's 2010 figures. Several of the amenities also serve the citizens of North St. Louis County and North St. Louis City. The City of Florissant has several business districts, shopping centers, restaurants, department stores, and grocery stores which serve not only the residents of Florissant, but the surrounding areas as well. A number of the surrounding communities do not have department stores and grocery stores, and those residents drive to Florissant to get those services. The City of Florissant also has numerous arterial roadways, which include county, state roads as well as a portion of an interstate, which provides access and travel routes for our citizens and the citizens of the surrounding communities. The majority of the traffic stops that the Florissant Police Department makes are on these arterial roadways. Florissant sees a higher ratio of the visiting population due to the significantly higher percentages of African-American citizens living in adjacent communities such as Black Jack, Dellwood, Ferguson, Berkeley, and Spanish Lake. The Ferguson-Florissant and Hazelwood School Districts, which both have schools in the City of Florissant, have a student ratio of 87% African American. When all of the above factors are taken into consideration, the traffic stops reflected in our annual report are truly representative of the motoring population that travels the City of Florissant.

**Agency response**

Frontenac has a large section of I-64 and a major shopping mall within our City, which is the geographic center of St. Louis County. Our daytime population increases by tens of thousands of people. The disparity index used by the AG's office uses only individual city demographics, as opposed to more realistic county-wide demographics. This method skews the results when viewed in relation to a small city with few minority residents. This is true for other St. Louis County cities with few white residents. Obviously, motorists other than City of Frontenac residents drive on our streets and highways. For years, this Department has requested that this comparison formula be revised to include St. Louis County data, which would clearly reflect that Frontenac traffic stops are directly in line with County demographics.

**Agency response**

The City of Gladstone contains many sizable apartment complexes along major thoroughfares in the city that serve as principal connections to U.S. Highway 169, a well-traveled freeway that connects Gladstone to the City of Kansas City and links our city to the Kansas City International Airport. These apartment complexes offer government-subsidized housing that appear to contain a disproportionate percentage of minority tenants. The City of Gladstone is completely surrounded by urban Kansas City, Missouri. There are several apartment complexes located within the city limits of Kansas City immediately adjacent to the City of Gladstone and seem to house significant percentages of minority tenants. Several of these apartment complexes are accessible only via Gladstone city streets, generating significant motor vehicle traffic – including minorities – through Gladstone. In addition, Gladstone experiences considerable vehicular traffic that originates and/or terminates within Kansas City and does not involve Gladstone residents or their visitors. The combination of freeway access, being surrounded by Kansas City, the concentrations of minority tenants in apartment complexes, the visitor traffic generated by these apartments, and traffic generated from outside our city, attracts a higher percentage of motorists – including minorities – than the proportion of the minority residents of the city would suggest. Gladstone Department of Public Safety has established, and vigorously enforces, policies to ensure minorities are not disproportionately subjected to stops or arrests by our police officers. These policies are reinforced by active supervision and training of our law enforcement officers to assure racial profiling or other discriminatory behavior does not exist.

**Agency response**

The State's report indicated a driving-age population demographic for the City of Grandview as 49.48% White, 38.51% Black and 8.34% Hispanic respectively. However, our true driving demographics are affected by two major influences which are not reflected in the census data. The first is that the City of Grandview is a first tier city to Kansas City, MO which is bisected by I-49/U.S. 71 Hwy; a major corridor direct to the inner city which maintains a high minority population. Much of our evening traffic is made up of motorists traveling to and from the inner city. Secondly, in 2010, the International House of Prayer opened their international university campus in the city center. This campus brings in several thousand very racially diverse students, which operate motor vehicles on our city streets on a daily basis but which are not represented in the census driving population data.

**Agency response**

The City of Hannibal has both the US 61 and US 36 Highways intersecting within its boundaries. In addition, Hannibal is known as "America's Hometown" and for "Mark Twain" which draws a sizable number of tourists annually. Considering all these factors demonstrates Hannibal's local population as related to race is an inaccurate representation of what local law enforcement officers encounter in the performance of their duties. The statewide population % concerning race is a more accurate representation of the populace officers interact with during the completion of their duties.

**Agency response**

In 2013 our African American minority driving population of 4.75% is comparable to the most recent 2010 census report estimate of 5.4% of the city's total population. The 2013 disparity index for this population of 3.17 is due to regional influences. Independence shares a common border with Kansas City Missouri that has an African-American population of approximately 29.9%. The east portion of that city that borders Independence offers limited entertainment or shopping options. Independence is a regional destination for dining, shopping, and entertainment with a regional indoor shopping mall, movie theaters, event and sports center, and significant employment and retail opportunities. The increasing regional minority population is noted in a 2013 report by the Mid America Regional Council (MARC). It estimates that the region's population segment relating to people of color increased 67% from 2000 to 2010. Each of these factors in conjunction with major Interstate and State Highways running through Independence influence the racial composition of motorists. I-70, I-470, U.S. 40 Highway, and M-291 Highway all are major regional traffic arteries that traverse the city. The Independence Police Department is a professional law enforcement agency that does not permit racial profiling. Officers receive annual training on cultural challenges and issues. We are committed to ensuring we maintain accountability and the integrity of the racial profiling documentary process in compliance with Missouri State Statute.

**Agency response**

"Disparity indexes have not fluctuated significantly since the data collection began in 2000. However, these numbers should be interpreted cautiously. Specifically, relying on the census population for ages 16 and over as a benchmark does not provide a realistic picture of the driving population in Kansas City, Missouri at any given time. There are several major thoroughfares that run through the city, including I-29, I-35, and I-70 that contain a large percentage of drivers not reflected in the static census population used for comparison purposes. Additionally, Kansas City is contained within a metropolitan population of approximately 2.0 million, which adds to the commuter population on the major thoroughfares. Also, when examining search rates, the probable cause/authority to search reasons should be considered. By design, the form on which the AG Office submitted the summary report did not include the category Stop Outcome "Other", which was a factor involving 3,096 stops. Lastly, KCPD views vehicle stop data collection as one of many tools to address the issue of racial profiling. Other tools in use by the department include training, community programs, and policies."

**Agency response**

Interstate 35 runs through the center of Kearney with exits onto 92 Highway where a large, high-volume truck stop is located. State Highways 33 and 92 intersect in Kearney city limits just east of I-35. Within a five-mile radius of the city limits of Kearney are a large number of subdivisions that have a population of more than 18,000 people. Most of these people use the Mo. 33, Mo. 92 and I-35 routes on a daily basis.

**Agency response**

The City of Kirkwood has two major interstates (I-44 & I-270) which are used by a large percentage of the population in the St. Louis County area. There is also a medium-sized shopping center that is located adjacent to I-44. This center contains a Wal-Mart, Target, and a Lowes as the major tenants. On the other side of the street is another medium-sized shopping center that contains a Burlington Coat Factory, Dollar Tree, a sporting goods store, and pet store as the major tenants. All of these attract customers from the St. Louis metropolitan area.

### Agency response

Since 2001, The City of Ladue and similar communities throughout Missouri are particularly critical of the Attorney General's Vehicle Stops Report because it does not accurately measure the population of individuals (by race or ethnicity) at risk of being stopped by its police officers. This overly inflates the disparity index in Ladue and these communities making it appear as if their officers are racial profiling. The City of Ladue developed an interactive system that relies on an internal benchmark for monitoring vehicle stops at the individual officer level; Identified additional methods for evaluating vehicle stops and post stop events (i.e. arrests, searches, etc.) that are more precise than the methods used by the Attorney General; and subjected our vehicle stop data to a more rigorous analysis by a nationally recognized racial profiling expert.

**Agency response**

Lafayette County adjoins Jackson County on our western border. Lafayette County is a rural county, Jackson County is a large metropolitan county which includes the Greater Kansas City area. Lafayette County has a major interstate highway (I-70) that transects our county from west to east and US 24 Highway from west to east. Our transient motoring population has a very different and diverse population than our residential population.

**Agency response**

The city of Lake Saint Louis is bordered by I-70 to the north and I-64 bisects the south end. A large shopping center is just north of I-64 and to the south lies a retail district. Workers routinely travel both interstate corridors west to the Wentzville GM Plant and to major employers in O'Fallon and other points east. Due to these factors, calculating a disparity index based on comparison of ethnicity of drivers stopped with the ethnicity of the city's population may be misleading due to the transient traffic.

**Agency response**

The City of O'Fallon is located in the center of St. Charles County. We have 2 major Interstates – I-70/64 and State Highway 79. O'Fallon also has a major arterial roadway – MO K – that connects the 3 highways from north to south and is a major retail corridor. Because of these heavily traveled roadways, our driver population is more diverse than the census population would indicate, making our disparity index artificially high.

**Agency response**

The City of Osage Beach is unique in that it lies along the shores of the Lake of the Ozarks, one of the largest man-made lakes in the nation. The City is a major destination resort area and has wide fluctuations in population during the year. The City is also home to Osage Beach Premium Outlets, a shopping mall featuring over 110 stores, which draws tens of thousands of visitors to our city.

**Agency response**

Raymore continues to increase significantly in population, above the numbers used for comparison from the 2010 census. The Community Development Director for the City of Raymore provided the official population estimate as 19,550 as of July 1, 2012. This number is provided to the City each May for the previous year by the U.S. Census Bureau. In 2013, the City issued 110 permits for new single family homes. The number of new homes in 2012 was 68; in 2011 was 66; and in 2010 was 48. A big box wholesale store relocated from Grandview, Missouri to Raymore in 2013 bringing a diverse, transient customer population with it. Additionally, a large affiliated retail store is located in the same area as the new wholesale store and continues to be the highest "call for service" and arrest location in Raymore. This store is open 24-hours and is the only one of such in the southern Kansas City metropolitan area. The total number of stops increased from 7,871 in 2012 to 9,846 in 2013 representing an increase of 1,975 stops or 25%. The total number of minority stops increased commensurately from 1,312 in 2012 to 1,668 in 2013. It is important for the community to note that while the overall stop numbers keep increasing, the comparison is still to 2010 census data. Raymore borders communities such as Kansas City, Belton and Grandview with considerably larger and more diverse populations.

**Agency response**

The City of Richmond Heights is a 2.8 sq. mile City incorporated in 1913 located on the western boundaries of the City of St. Louis. Richmond Heights has three miles of US 64 (Highway 40) running directly thru it. Highway I-70 runs north and south from US 64 to the City limits of Clayton. Located in Richmond Heights are the Galleria Shopping Mall and the new Boulevard Shopping District. The Galleria Mall and the Boulevard generate approximately 11 million shoppers or visitors each year. Richmond Heights also borders the City of Clayton, which is the County seat for St. Louis County. Thousands of vehicles travel thru Richmond Heights on a daily basis due to its geographic location. Estimated daytime population of Richmond Heights is 26,000.

Arrest rate	5.16	4.05	7.57	3.58	2.16	6.78	1.18

**Notes:** Population figures are from the 2010 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

**Disparity index** = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

**Search rate** = (searches / stops) X 100.

**Contraband hit rate** = (searches with contraband found / total searches) X 100.

**Arrest rate** = (arrests / stops) X 100.

#Error indicates zero denominator.

**Agency response**

The following conditions may influence minority contacts in St. Peters: Interstate Highway 70 and Missouri Highways 94, 370 and 364 pass through or terminate within the City. Mid-Rivers Mall, a major retail development, is located along Interstate 70 and Highway 370. The community is home to several regionally significant office and professional campuses; and employees of local businesses, commuter traffic and retail customers significantly increase the non-resident driving population.

**Agency response**

It is unfortunate that our disparity index is based upon the population demographics of the City of Town and Country, which has a population of approximately 11,000 people with an African American population of 2.69 percent. Nearly 400,000 motorists travel through our city limits each weekday with the second most voluminous interchange in the state (Interstates 64 and I-270). Our motoring public is reflective of the demographics of the state and St. Louis County, which are comprised of African American populations of 10.9 and 19 percent respectively. The traffic stop data for Town and Country Police Officers indicates that only 3.6 percent of the motorists stopped are residents of Town and Country. The natural implication of this statistic is that the ratio of the race of motorists stopped for violations would reflect state and county demographics, not the City of Town and Country. The Town and Country Police Department is committed to the fair and impartial application of the law while attempting to maintain a safe environment for all people who travel in and through our City limits. A careful examination of the data indicates that our practice matches this policy.

**Agency response**

The City of Waynesville directly borders Fort Leonard Wood Military Installation. This includes the only access to Fort Leonard Wood's West Gate. The population of Fort Leonard Wood is estimated to be 15,061 many of whom reside outside of Fort Leonard Wood in the neighboring communities. Many Fort Leonard Wood employees and staff routinely pass through the City of Waynesville on a daily basis.

Arrest rate	4.98	5.07	0.00	0.00	0.00	0.00	#Error

**Notes:** Population figures are from the 2010 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

**Disparity index** = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

**Search rate** = (searches / stops) X 100.

**Contraband hit rate** = (searches with contraband found / total searches) X 100.

**Arrest rate** = (arrests / stops) X 100.

#Error indicates zero denominator.
